

COMPANY PROFILE

SO SAFE GROUP OF COMPANIES

So Safe Products LLC

So Safe Water Technologies

So Safe International

So Safe Product Trading LLC

***In Pursuit of Excellence...
Every Drop Counts !!!***

Introduction

So Safe Water Technologies was established in 1980 with the prime objective of providing services to all those who need assistance in the field of water purification at an affordable cost.

Deteriorating health standards mainly due to water problems in most countries and especially in developing countries was the key motivating force for the establishment of these companies.

The first product introduced in the market was the domestic water filters. The popularity and effectiveness of domestic filters laid the foundation for development in the commercial and industrial sectors.

Our quality control personal ensure highest degree of quality, its implementation, monitoring and control. Every project is designed and run to the entire satisfaction of the client. In 38 years of committed services to all the clients in domestic, commercial and industrial sectors, the company has gained the confidence of its clients to the extent that the name So Safe has become synonymous with quality and health.

So Safe is now dealing in all types of water purification systems including:

- Domestic Whole House Water Purification Systems & Commercial Water Purification Systems
- Specialized Water Treatment Systems with Ultra Filtration Membrane Technologies
- Reverse Osmosis Systems, Softeners and Deionizers.
- Industrial Process Water Treatment
- Sewage Treatment Plants
- Industrial Effluent Treatment Plants
- Swimming Pool Equipment, Construction & Maintenance
- Nano Bubble Technologies
(Lakes, Fish Ponds, Animal/Birds, Kidney Dialysis, Health Benefits)
- Specialized Community Water Systems to Remove Heavy Metals Including Lead, Arsenic, Florides, Nitrates & Nitrites incorporating latest Japanese Technologies.
- Specialized Technologies to Sterilize Tissue Paper Through Steri Pro Paper Sterilization System.

Mission Statement

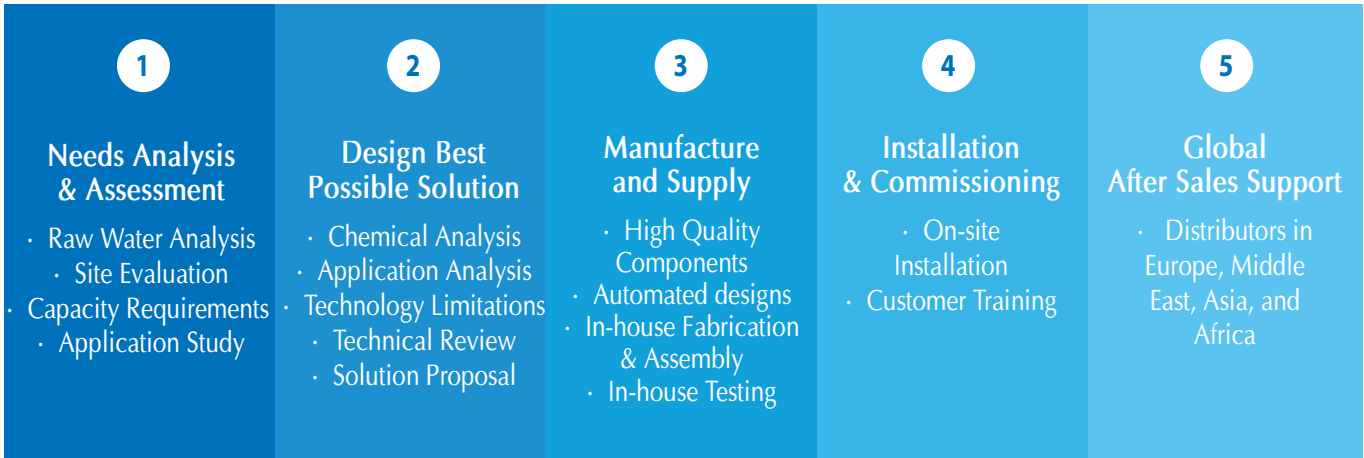

The mission of this organization is not only to provide effective water treatment solutions to all those requiring it but to improve the health standards of the people of this nation to a level consistent with international standards.

So Safe endeavors to contribute in protection and improvement of the environment by vigorous educational programs and research for developing environment friendly products.

The company aims at targeting all the people in different geographic and demographic areas and relating to all social classes. This specific objective is achieved by provision of water treatment systems suitable for different segments.

5-Step Quality Assurance Process

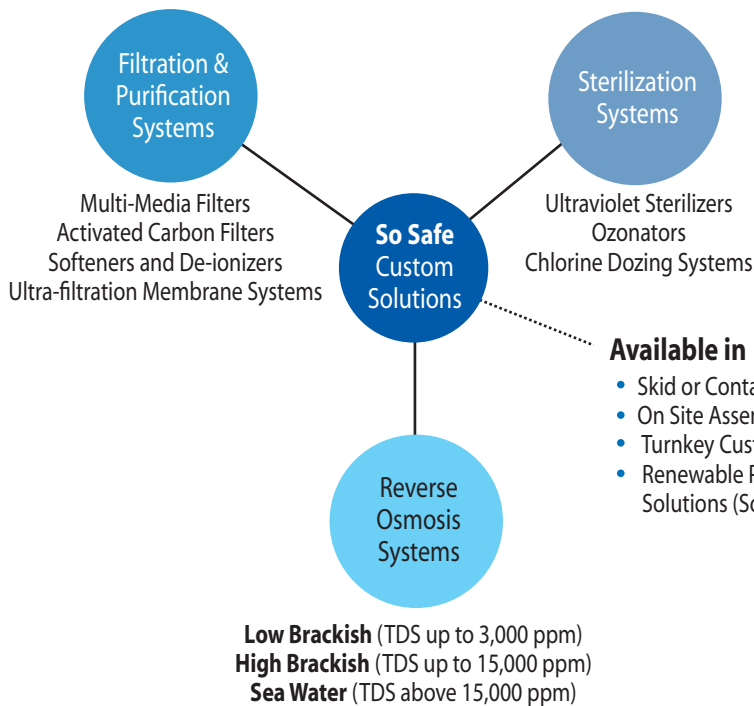

We offer Solutions, NOT Products

Applications

Commercial and Industrial Water Purification Systems

Available in

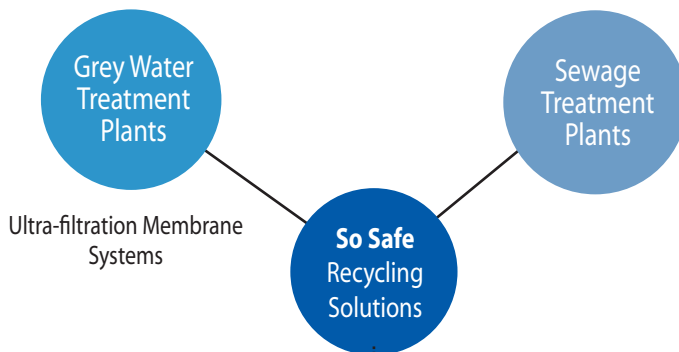

- Skid or Container assembly
- On Site Assembly
- Turnkey Custom Design
- Renewable Power Solutions (Solar or Wind)

Why **So~Safe** ?

- Best European & US components
- Customized design, tailor-made just for your needs
- Automated design with So Wise controls
- Ease of Installation & Maintenance
- Warranty coverage
- International backup & support

Commercial and Residential Water Recycling Systems

So Safe offers Grey Water and Sewage Treatment Plants using state-of-the-art technologies and processes. These systems are available in modular forms for ease of installation and transport. For large capacities, we also offer on-site civil works assembly.

Available in

- Containerized form
- Civil Works installation
- Renewable Power Solutions (Solar or Wind)

Choose **So~Safe**

- Protect your family and children from unsafe dirty water.
- Millions of families around the world have benefited from safe and healthy drinking water by using **So~Safe** purifiers for more than 40 years.

Domestic Water Purifiers

Point of Use Systems

All So Safe Filters & Cartridges are made from high quality FDA grade raw material and components that give safe and pure water for drinking, cooking, bathing and washing.

So Safe domestic water purifiers are available in all major hypermarkets in UAE including Carrefour, Safer Group, Lulu (Emke Group) etc.

***"When It Comes To Your Family,
Every Drop Matters..."***

Whole House Water Purification System

Industrial & Commercial Water Purification Systems

500,000 GPD High Brackish Water RO system with So~Wise® PLC System and Soft-Start

Cartridges & Consumables

So Safe also offers a wide range of other types of sediment removal and media cartridges including [Ceramic](#), [Pleated Paper](#), [Activated Carbon](#), [Silver Impregnated GAC](#), [KDF](#), [Cation-Anion Resin](#), [Phosphate Crystal](#), [Activated Alumina](#), and various other specialized media.

These cartridges are available in standard or made-to-order forms depending on the requirement of each client.

International Collaborations

So Safe is working in collaboration with many international companies in the field of water and wastewater engineering. These are:

- Pan America Environmental Inc
- Pentair, USA
- Aquant
- Severn Trent Services, USA
- Denora Italy
- Marlo Incorporated, USA
- Suqi Komatsu 5000, Japan
- Fluxlite, Korea
- Hague Water, USA
- Applied Membranes, USA
- Pure Aqua, USA
- Peraqua, Austria
- Atlantic Ultraviolet, USA
- First Light, USA
- Midas Germany
- Somicon Switzerland
- Juta Europe
- Aqua Italy

Financial Status

The company has an experience of over two decades, a period marked by a number of successful, projects in different fields of its operations. These experiences have not only built a solid financial structure but have also been helpful in shaping our technical resources.

The company has never applied for any external debt due to its strict policy. The resources of the company are well enough to cover extensive projects as evidenced by its previous experiences.

The assets of the company are growing and the bonding capacity has increased to a respectably high level. The innovative products which are being produced and marketed by a team of experienced personals, backed by comprehensive and reliable after sales service is the root cause of its increasing confidence.

The company has never at any stage of its existence faced bankruptcy. This is due to the effective and timely decision making of the board of directors.

Recent Achievements

Sri Lanka: Community Water Centre for Sri Lanka in colabration with NSI, Japan using specialized SUPERJAS CLEAN Powder Technology for communities. Our MD had meeting with Sri Lankan Government and had MOU to supply 600 Nos. specialized water filtration units for these community centers in Sri Lanka.

Products & Services

Domestic Filters

Triple Water Filtration Systems

- UVM-711 (2 GPM System)
- UVM-722 (8 GPM System)
- 2000~S
- Single / Dual Water Filters
- Santeo R/O Water Purifiers
- Main Line Filtration Systems
 - Apollo Water Softner
 - Single & Dual Jumbo Filters
- Santeo 7 Stages R/O Systems (600 GPD)
- Apollo Whole House Purification Systems (8/16 GPM Flow)
- Cartridges (different types)
 - 10", 20", 30", 40", 50"

Commercial & Industrial Products

- Pressure Sand Filters
- Ultra Filtration
- Water Softeners
- De-ionizers
- Ozonation
- Granular Activated Carbon Filters
- Water Purification Plants for Industries
- Reverse Osmosis Systems
- Packaged Sewage Treatment Plants
- Industrial Effluent Treatment Plants
- Arsenic Removal Filters
- Ethyl Alcohol Filtration
- Spirit Filtration
- Oil Filtration

Spares & Services

- Nominal Cartridges
- Absolute Cartridges
- Membranes UF and ROs,
- Spares for Reverse Osmosis Systems
- Anti Scallent
- Maintenance Parts of Existing Plants
- Trouble Shooting Equipments

So Safe High-speed Bio Tec - Sudan

SO SAFE MBBR-G 3 Package Plants for Organic and Domestic Wastewater

We have made an effective effort to incorporate our past experience in fielding comprehensive offerings. We have implemented multiple world class, renowned equipment components and instruments. These features are time-tested, both at home & abroad. The utmost care has been taken for the selection of proper construction materials for each component in our package plant system. We believe appropriate selection of materials is vital in systems of this sophistication.

SO SAFE STP systems are based on High-Speed Bio-Tec G3 biodegradation and sedimentation technology. The system's compactness and performance is unique within the industry in respect of volumetric efficiency. The technology is packaged in a prefabricated, skid-mounted, tank system in standard lengths. Transportation in ISO freight containers

Features

- Self-cleaning, non-clogging G3 - MBBR
- 15 times the loading in less than 1/5 the time
- Easy to relocate and install
- Easy to upgrade
- Effluent suitable for irrigation
- Fully automatic and easy to operate
- Global production and service
- Timely delivery
